

Mike Siegel is the Executive Director of the Pediatric Dermatology Research Alliance (PeDRA), a nonprofit research organization pursuing the mission to create, inspire, and sustain research to prevent, treat, and cure childhood skin disease. He joined PeDRA in 2018 following four years in nonprofit leadership and almost ten years in academic research and teaching. In his current role as Executive Director, he seeks to strengthen PeDRA's collaborative research network and grow infrastructure that brightens PeDRA's future. Mike holds a BS in Biomedical Engineering from Washington University in St. Louis, MS in Biomedical Engineering from Northwestern University, and PhD in Bioengineering from the University of Washington.
